

Prepare for Measure

Preparation for the measure appointment for 100% guaranteed installation
The measure is the most important part in the installation process and you play a key role

- Cabinets, panels, walls are permanently installed, completely finished and will not be moved, lifted or added after the measure
- 100% selections and decisions finalized (color, edge, splash, cut outs, sinks, fixtures)
- Sinks, faucets, fixtures and appliances provided by customer are on site, unpacked, and specs available. Sink cut out template and reveal information available and on site
- Farm or Apron sink dry fit in place
- Existing countertops cleared
- Homeowner or decision maker over the age of 18 present at measure for details and approval

Without one or more of these points, we will not be able to complete the measure and we may have to return to measure again, which may incur in extra trip charges
Once the measure is complete, we can proceed to finalize drawings, pricing, approvals and scheduling

Your participation and help in this important step will guarantee best results and turnaround time

Thank you for the opportunity to be part of your project!
